### SKILLS

- JavaScript
  - jQuery
  - NextJS
  - React JS
  - HTML5
  - CSS3
  - SCSS/SASS
  - Bootstrap
  - Tailwind CSS
  - Node JS
  - C#
  - MS SQL
  - Shopify
  - Umbraco CMS
  - RESTful APIs
  - GraphQL APIs
  - Git & Version Control
  - Figma (UI/UX Design)
  - Performance Optimization
  - CI/CD Pipeline
- 

### EXPERIENCE

#### Full Stack Web Developer | Aug 2024–Present

##### Digiwhiz – Digital Growth Partner

- Lead development of full-stack solutions: architect, build and maintain ReactJS/Next.js frontends or HTML, CSS, JS/jQuery frontends, alongside updating Backend CMS and working on Shopify projects.
- Customise and extend Umbraco CMS for client-specific content-management requirements, building custom controllers and views.
- Mentor and onboard junior developers: conduct code reviews, deliver technical training sessions, and cultivate best practices across the team.
- Contribute to recruiting efforts by screening candidates, participating in interviews and refining the hiring process.

#### Front-End Web Developer | Aug 2022– Aug 2024

##### Digiwhiz – Digital Growth Partner

- Built responsive, pixel-perfect user interfaces using HTML5, CSS3, SCSS, Bootstrap, and Tailwind CSS, ensuring consistency across desktop and mobile devices.
  - Engineered interactive features and DOM manipulation with vanilla JavaScript and jQuery to enhance user engagement.
  - Developed and maintained ReactJS and Next.js applications, creating reusable components and optimising page load performance.
  - Managed end-to-end deployment workflows—configuring CI/CD pipelines to push sites to staging and production environments.
- 

### AWARD

#### TechWhiz Award | 2024

Honored with the TechWhiz Award for exceptional technical skills at DigiWhiz.

## PROJECTS

### Book Wise (Library Management System)

[Code](#) [Demo](#)

A modern, full-stack library management platform that streamlines catalog browsing, borrowing, returns, receipts, and admin operations for a university. Built with Next.js 15 (App Router) and React 19, it delivers a fast, accessible, and secure experience for students and admins.

**Tech stack :** *Next.js, TypeScript, React, Tailwind CSS, shadcn, Drizzle + PostgreSQL , Clerk, React Hook Form, Zod*

### Calen Sync (Calendar Meeting Management)

[Code](#) [Demo](#)

Calen Sync is a scheduling and calendar-sync application that helps users create, manage, and share meetings seamlessly. It integrates with Google Calendar to keep events synchronized, handles time zones elegantly, and automates email notifications for confirmations and reminders. Built with a type-safe, full-stack React/Next.js architecture, it prioritizes performance, accessibility, and developer ergonomics.

**Tech stack :** *Next.js, TypeScript, React, Tailwind CSS, shadcn, Prisma + MongoDB, NextAuth.js, Clerk, Zod*
